

ICD-10-CM Editing – Unacceptable Principal Diagnosis

The following edit will be implemented for the payers listed below and will begin with the acceptance of ICD-10 CM coding on 10/1/2015.

- Blue Cross Blue Shield of Kansas (47163)
- Highmark Blue Cross Blue Shield of Western New York (00301 or 00801)
- Highmark Blue Shield of Northeastern New York (00800)
- Highmark Western and Northeastern New York (55204)

PURPOSE: An EDI front end edit for Institutional Inpatient claims will be implemented to encourage providers to document and specify the most appropriate code related to a condition. There are selected codes that describe a circumstance which influences an individual's health status but not a current illness or injury, or codes that are specific manifestations but may be due to an underlying cause. These codes are considered unacceptable as a principal diagnosis.
